1) The reported units have been adjusted for a true calendar month (as defined by MLS cut-off dates each month)

2) Under Contract units reflect those properties reported as "under contract" during the period - i.e., a binding contract was executed between buyer and seller.

3) Closed units reflect the passing of title. The close date generally lags 30-90 days behind the under contract date and is often distorted by many outside factors unrelated to the extent of real estate activity.
